Dear Mr. Greg,

My Mother, Mrs Adoni Hailu Gebryee age 65 has been seriously sick, and needs medical treatment urgently. She was sick in March 2015, I was asked help from your coalition: wasn't answered, miraculously healed. Thank you. In September 2015 my first aunt was sick and I was asked help from your coalition. You couldn't help me, she passed away. Now with her celestial father.

The governmental medical clinic in Irob, Daowhan is trying to help my mother, but they have desperations because of potential availability. They advised her to go to the city and see the specialists.

According to best estimates now, my mother will need about minimum 9500, ETH Birr to pay doctors. Most for medicine – antibiotic, and treatment.

That is only \$475 US, which I would give in a moment, except you know that my whole family of refugees and I, too – we all are destitute. Could you please ask benefactors of NCCL apostolatus share in the life saving case?

Jesus has born, God will open the closed heart to save life.

Deus caritas est.

I looking the Christmas eastern star since am from EAST, as one without hope.
